

# Index for Journals, Volume 1

Introductory essays, annotation, and most reference materials have been indexed. Most maps are not indexed; map coordinates for specific locations are given in the Geographical Directory. The following locations are given without state information: Adam-ondi-Ahman (Missouri), Caldwell County (Missouri), Commerce (Illinois), Daviess County (Missouri), Far West (Missouri), Jackson County (Missouri), Kirtland (Ohio), Nauvoo (Illinois), and Quincy (Illinois). Spelling, punctuation, and capitalization of quotations have been standardized. Personal names are listed by their correct spellings, not by variant spellings that may be found in the journals, except where correct spelling is unknown. Entries for women are generally listed under their final married names, with appropriate cross-references under maiden names or earlier married names. Unidentified individuals, such as “Mr. Bradly,” have been indexed. The initials JS refer to Joseph Smith.

Information within an entry appears in page order, with a few exceptions. When found in an entry, the following always occur before other subentries: “iden.” indicates an entry in the Biographical Directory or Geographical Directory, “def.” refers to a definition in the Glossary, “handwriting of” identifies ranges of pages on which an individual inscribed text, and “overview” refers readers to summaries of key events and topics. When used, “mentioned” is placed at the end of an entry. Also listed at the end of an entry are correspondence to or from a person and revelations pertaining to a person.

This index was prepared by the Joseph Smith Papers staff, Jack Lyon, and Rachel Lyon.
